

Read Carefully

When choosing your permanent make-up school please be very aware of the “**wanna-be**” instructors out there: People who offer two day training courses or “cheaper” training, home training courses, free training, and videos. Remember a good instructor should have **several** years experience in the business. Your instructor should be experienced in advanced training of make-up techniques. Be very aware of **recent** graduates trying to “teach” after a couple of years of experience. Permanent make-up should be at least a 40 hour course taken with a very experienced instructor, with hands on instruction on live models. This should be done one on one – **not** in a class room full of students. At Advanced Educator your education is number one to us. Deb Long/ Advanced Educator - has trained students from all over the **world** and your success is important to us. We strive to keep our education on **top** being the only school in the country to teach the latest techniques in permanent make-up. Deb currently holds **four** licenses and **ten** certifications in the beauty industry and constantly continues her education as well. At Advanced Educator once you are our student –you are always our student- we offer continued education for the rest of your life- if I learn something new – you learn it too! Remember when choosing a school- your success will depend on how well you were educated.
